NEP-2020

A New Normal in Technical Education

Impart | Innovate | Incubate

TECH VC CONCLAVE

The skilled workforce is all we need to maintain the momentum of growth. Undoubtedly, the education sector's contribution is enormous as we see how an ever-competent workforce emerges to meet the futuristic societal needs. The paradigm shift in education requires institutions to reboot, reinvent and restructure in all their spheres through collaborative efforts by learning from each other's success stories and best practices. Visvesvaraya Technological University (VTU), Belagavi, envisioned the Tech VC Conclave series to create a robust platform to bring in global leaders from all sectors to discuss contemporary issues & trends in technical education. The Tech VC conclave is jointly organized once in two years by VTU, Belagavi in collaboration with organizing Technological Universities in India.

NEP-2020:

As a technical education hub, India is taking several initiatives to advance the skill set of the technical workforce at the national & global levels. The NEP-2020 introduced by the Government of India is opening up new dimensions in the Indian education system. Technical institutions need to reinvent and reposition themselves to seize the opportunities and NEP-2020 to meet all the requirements of the Industry. The mantra of these institutes should be "Impart Innovate Incubate."

NEP 2020

Tech VC Conclave

A VTU Initiative

THE BEGINNING...

Technological State Universities are located in different states of our Country. These Universities have successfully affiliated all Engineering Colleges of their respective States and regulated Technical Education as per the directives of UGC and AICTE; VTU is among them.

Though AICTE gives a broader framework for administering Technical Education, autonomy has been given to individual Universities. Hence, several administrative practices are different among various Universities.

VISION

To create a fraternity of technical intellectuals to exchange the ideas, the success stories, the best practices, roadmaps in the technical education domain by collaborative efforts and to meet the global industry needs.

A common platform was needed of the hour to address and resolve all the challenges faced by technical education most effectively. Here, the contemporary problems are discussed and deliberated to get the solutions from the experts.

Taking this forward, the VTU, Belagavi envisioned organizing a Conclave of all the Vice Chancellors of Technological Universities in India i.e Tech VC Conclave bi-annually to contemplate technical education problems and chalk out recommendations.

Third Tech VC Conclave:

The 3rd Tech VC conclave is organized by VTU, Belagavi, in collaboration with AICTE, New Delhi and Government of Karnataka, on the theme "NEP-2020: A New Normal in Technical Education" on 15-16 of September 2022 at The LaLiT Ashok hotel, Bangalore.

NEP-2020 A New Normal in Technical Education

The objective of the conclave is to bring all the leaders of technical Education Institutions/Universities/Agencies along with industry experts and the R&D sector to a common platform to discuss and learn best practices and roadmap for implementation of NEP-2020 in the technical education sector. The event will immensely benefit technical education institutes in implementing NEP-2020, which will be a game changer in technical education and in meeting the global technical workforce requirements of Industry X.0. The conclave anticipates nearly 200 Vice Chancellors of Public and Private Technical Universities and Directors of eminent Technical Institutes and 200 Principals of VTU affiliated colleges.

OBJECTIVES OF THE CONCLAVE

-  To discuss, deliberate, and learn the nitty-gritties of implementing NEP-2020 in technical education
-  To share success stories, roadmaps, pedagogy in the context of NEP-2020
-  To enable institutions to understand the technical workforce needs of job market by interacting with industry and R&D leaders
-  To create a platform to network and collaborate with institutions, peers and industry
-  To promote and assist Technological Universities in developing the eResource Consortium, e-Learning platforms, to compliment the aspirations of National Education Policy & Open Learning Platforms.

EARLIER TECH VC CONCLAVES:

First Tech VC Conclave

The first Tech VC Conclave was organised by VTU, Belagavi, in collaboration with AICTE, New Delhi and Springer Nature with a theme: **“Collaborate Innovate Educate”** during 23-24 November 2018 at Hotel The LaLIT Ashoka, Bangalore. Thirty Vice Chancellors from various Technological Universities participated and shared their success stories in the Conclave. The plenary talks and panel discussions deliberated several issues related to technical education and possible solutions to address the anticipated challenges.

Second Tech VC Conclave:

The Second Tech VC conclave was organised by Jawaharlal Nehru Technological University (JNTU), Ananthapuram in collaboration with VTU, Belagavi, AICTE, New Delhi and LIS Academy, Bangalore as event organising partners with a theme **“Reinventing Excellence in Technical Education”** during 13-14 February 2020 at JNTU, Anantapuram. More than 50 Vice Chancellors and Directors of IITs, NITs and 200 Principals of JNTU & VTU affiliated colleges were participated.
